Team Acceleration Journey

Unlock the full potential of your
leadership team

“Not finance, not strategy, not technology, it is teamwork that remains the ultimate competitive advantage, both because it’s so powerful and so rare”

Patrick Lencioni

Our approach:

1

Discover: Intake and diagnosis. Defining together the objective and desired outcomes. Use proven tools to diagnose motivations, talents and competencies.

2

Co-create the Journey : A tailor-made program that is aimed at creating a breakthrough in trust, commitment and results.

3

Deliver: facilitate high impact sessions with total team during off-site sessions as well as in-context meetings.

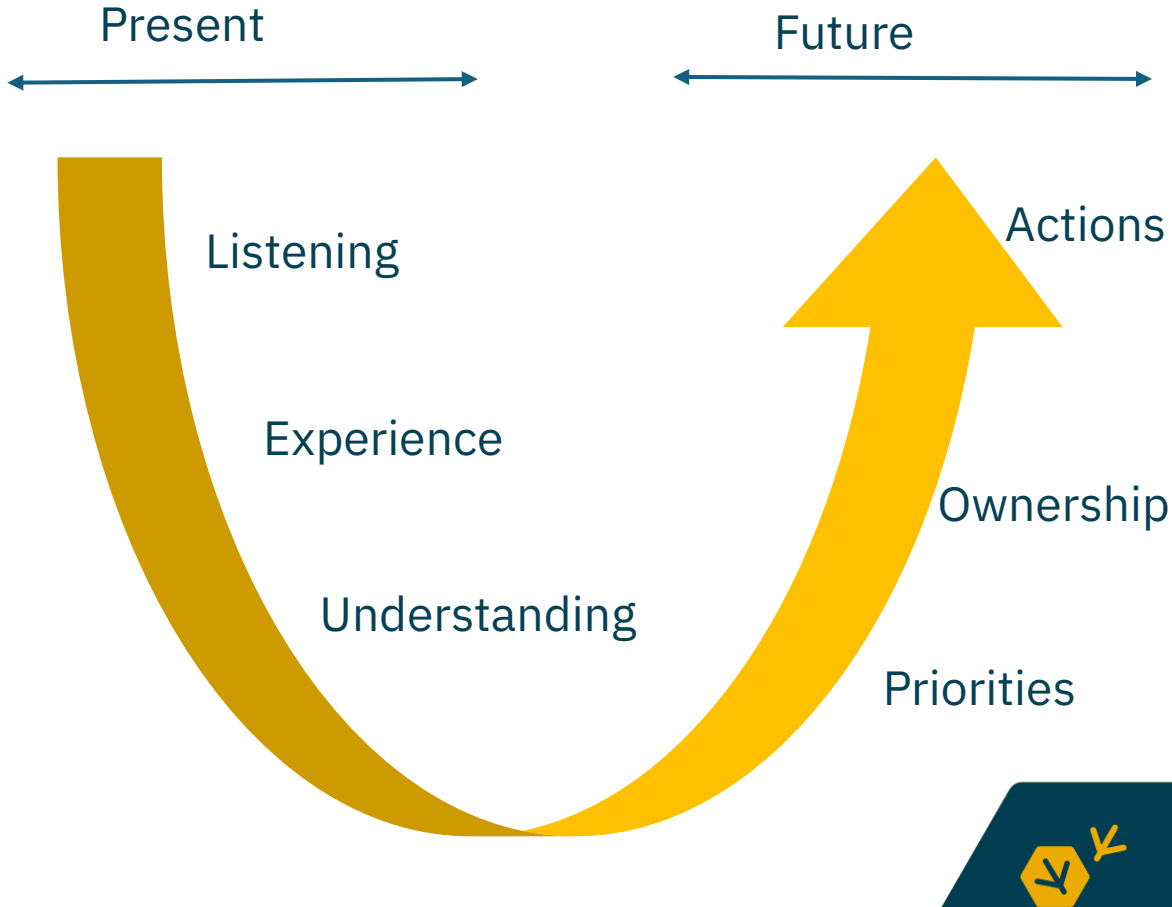

① Discovery fase: Increase talent awareness and create common language.

② Co-create the Journey

③ Delivery fase: High impact sessions with experiential learning

'Casper is an excellent facilitator. He brings a group in the right direction: both in content and process. He doesn't achieve this by having the loudest voice, but by asking stimulating questions that make people think differently'

Frank V, CFO
